GARDEN SHED BASE PREPARATION

 <p>Note: Oversize concrete base allows rain to bounce up, soaking the bottom boards. Wind and rain can drive leaves and rubbish under the shed in winter</p>																						
<p>'Providing your site is not liable to regular flooding, your MINETY building can be erected directly onto a paving slab base.</p> <p>When laying the slabs, ensure that you consolidate a firm sub-base and then lay the paving slabs onto sand, gravel and cement dry mix.</p> <p>Attempt to construct the base so that there is a 50mm (2") perimeter on all sides of the base. An oversized base leads to the floor rotting.</p>	<p>Minety pressure treated 75mm x 75mm (3x3") section fence posts offer a simple and cost effective alternative to a paving slab base.</p> <p>Make sure that the overall base area is level by removing any vegetable or turf matter.</p> <p>Then lay the bearers, one each end of the base, and at regular space intervals in between. Use a spirit level to ensure that each bearer is level to the next</p>																					
<table border="1"> <thead> <tr> <th>SHED SIZE</th> <th>Number of Bearers Required</th> <th>Length of Bearers Required</th> </tr> </thead> <tbody> <tr> <td>4 x 4</td> <td>3</td> <td>1.2m (4ft)</td> </tr> <tr> <td>6 x 4</td> <td>3</td> <td>1.8m (6ft)</td> </tr> <tr> <td>7 x 5</td> <td>4</td> <td>1.5m (5ft)</td> </tr> <tr> <td>8 x 6</td> <td>5</td> <td>1.8m (6ft)</td> </tr> <tr> <td>10 x 6</td> <td>6</td> <td>1.8m (6ft)</td> </tr> <tr> <td>10 x 8</td> <td>7</td> <td>2.4m (8ft)</td> </tr> </tbody> </table>	SHED SIZE	Number of Bearers Required	Length of Bearers Required	4 x 4	3	1.2m (4ft)	6 x 4	3	1.8m (6ft)	7 x 5	4	1.5m (5ft)	8 x 6	5	1.8m (6ft)	10 x 6	6	1.8m (6ft)	10 x 8	7	2.4m (8ft)	
SHED SIZE	Number of Bearers Required	Length of Bearers Required																				
4 x 4	3	1.2m (4ft)																				
6 x 4	3	1.8m (6ft)																				
7 x 5	4	1.5m (5ft)																				
8 x 6	5	1.8m (6ft)																				
10 x 6	6	1.8m (6ft)																				
10 x 8	7	2.4m (8ft)																				

It is also advised that wood preservative be applied annually to the shed to protect it from the elements and prolong its life
